You have chosen to ban firearms in your store. As such I have chosen to take my money to your competitors until such time as you choose to allow law-abiding armed citizens in your establishment.

Law abiding citizens of the community who choose to carry firearms openly or concealed (with a license) so do to protect themselves and their families in the event that someone else chooses to do harm to them.

By prohibiting **all** weapons and not just illegal weapons, you have disarmed and made helpless anyone whom enters your store **except for the criminals**, who won't follow your policy anyway. In essence you have made your store more dangerous for your law-abiding patrons and safer for criminals.

Until you choose to only ban **illegal** weapons, you have lost my business and the business of millions of people who choose to legally carry a firearm.
