You have chosen to ban firearms in your store. As such, I have chosen to take my gun, and my money, to your competitors until such time as you choose to allow law-abiding armed citizens in your establishment..

Citizens are legally allowed to carry firearms openly or concealed (with a valid license) to protect themselves and their families in case someone else threatens to harm them.

By prohibiting **all** weapons, you have disarmed and made helpless anyone who enters your store—except for criminals, who won't follow your policy anyway. In essence, you've made your store more dangerous for patrons who carry legally...and safer for criminals.

Please consider changing your policy. There may come a time when an armed, law-abiding citizen stands between you and an armed criminal.
